**NEGATIVE STATE TRUST
FUND BALANCE**

The Nevada Department of Employment, Training and Rehabilitation owes more than \$720 Million to the Federal government. This loan is used to pay the excess claims the State Trust Fund cannot cover. INCREASED TAX COST

In order to replenish the trust fund, the Department of Employment, Training and Rehabilitation increased factors used in calculating unemployment rates over recent years, therefore increasing the average unemployment tax cost per employee.

HIGH UNEMPLOYMENT RATES

The deficit fund balance is a result of the 158,660* unemployed workers (11.6% of the labor force) and not collecting enough money in employer taxes to cover their claims.
