\$782 Million

NEGATIVE STATE TRUST FUND

The South Carolina Department of Employment and Workforce owes more than \$782 Million to the Federal government. This loan is used to pay the excess claims the Trust Fund cannot cover. In addition to regular unemployment costs, South Carolina employers also had to pay an Interest Surcharge in 2011.

INCREASED TAX COST

In order to replenish the trust fund, the Department of Employment and Workforce increased rates over recent years, therefore increasing the average unemployment tax cost per employee.
