

# STATE UNEMPLOYMENT SURETY BONDS

## *Product Highlights*

Several states require employers to post collateral with their state unemployment agency in order to reimburse directly. Unlike other unemployment surety bonds, the First Nonprofit bond does not require indemnification of the directors of the nonprofit agency.

- Competitive rates make opting out of the state tax system a viable, cost-saving option.
- Dedicated underwriting staff that designs limits to state requisites.
- Bonds are available for groups and individual organizations.
- First Nonprofit offers bonds in all states that require collateral to maintain reimbursing status:
