# paying SUTA?

State Unemployment Tax (SUTA) Savings with First Nonprofit  
2009 – 2016 Total Savings: \$156,565

First Nonprofit Group (FNG) provides safe alternatives to paying the high cost of State Unemployment Taxes (SUTA). New 2017 FNG customers saved an average of 31% by opting out of SUTA and enrolling into one of FNG's unemployment programs! To the right is a savings sample of one of our customers.

## self-insured?

Organizations that have already opted-out of SUTA (self-insured/reimbursing) are subject to potential risks, such as unforeseen layoffs. FNG programs minimize the risk associated with being a self-insured employer, provide a fixed annual cost and remove the uncertainty of your exposure. Additional customer benefits include:

- professional unemployment claims administration
- stand-alone excess loss insurance for individual use
- discounted background services
- cyber monitoring alert
